

- 1 Connect one end of the yellow ethernet cable to the ethernet port on the ONT
- 2 Connect the other end of the yellow ethernet cable to the WAN port on the router
- 3 Connect the power adapter to the router and press the power button to turn on

Power Adapter

Router

- 4 Wait a few minutes then check the following LEDs remain on to confirm the router is connected correctly

Note: If the 2.4GHz and 5GHz LEDs are off, press the Wi-Fi button on the top of the router for approximately 2 seconds until they turn on.

- 5 Connect your devices to the router (Wired or Wireless)

Wired

Connect your computer to the router via an Ethernet cable to one of the LAN ports on the router.

Wireless

Connect your device to the router's Wi-Fi using the SSID (network name) and Wireless Password printed on the cards that were supplied in the router box.

ONT

(Optical Network Terminal)
